Professional Summary:

MCA graduate with experience in **software development, troubleshooting, data validation, quality assurance, documentation, and Agile/Scrum environments**. Proficient in **Java, Python, JavaScript, SQL, OOP, REST APIs, React.js, Node.js, and Git**. Hands-on experience developing web applications, implementing responsive interfaces, designing data structures, testing applications, and translating requirements into technical solutions. Strong problem-solving and debugging skills with experience working in structured delivery environments. Seeking a developer role to contribute to software development, application maintenance, debugging, and continuous improvement.

WORK EXPERIENCE:

Analyst

TATA CONSULTANCY SERVICE- TCS

August 2023 – November 2025

Chennai, India

Roles & Responsibility:

- Managed the **US Mortgage Short Sale process**, handling client requests, documentation review, data validation, and regulatory compliance.
- Analyzed requirements and collaborated with cross-functional teams to resolve issues and deliver assigned work within quality and timeline expectations.
- Performed **data validation, quality checks, troubleshooting, and root cause analysis** to identify discrepancies and support corrective actions.
- Investigated recurring issues, identified process gaps, and contributed to improvement initiatives focused on accuracy, reliability, and efficiency.
- Followed established standards, SOPs, and documentation practices to maintain consistent quality and traceability.
- Worked in an **Agile/Scrum environment**, managing priorities, meeting deadlines, and communicating progress and issues with stakeholders.
- Maintained accurate technical and process documentation to support quality reviews, issue tracking, and efficient information retrieval.
- Applied structured problem-solving techniques to analyze issues and support timely resolution of assigned tasks.
- Coordinated with internal teams to understand requirements, communicate issues, and implement appropriate resolutions.

Projects:

Portfolio Website - [//Link](#)

- Developed a personal portfolio website using **HTML, CSS, and JavaScript** to showcase projects, technical skills, and experience.
- Implemented responsive design for seamless viewing across desktop and mobile devices.
- Integrated smooth navigation, animations, and interactive UI components to enhance user experience.
- Deployed on GitHub Pages ensuring easy access and professional presentation.

Development & Design Project : [//Link](#)

Digital Engineering & Branding Implementation | *Bright Box Handicrafts & Shankar Jewelry*

- Collaborated directly with clients to gather requirements, translating them into robust digital engineering designs and custom eCommerce architectures.
- Iteratively planned and improved design procedures to maximize product quality, ensuring aesthetic and structural design acceptance prior to final deployment.

Generative AI & Automation Integration:

- Actively participating in the adoption of new technologies—including Generative AI, process automation, and computer-aided software engineering methodologies—to achieve greater efficiency and technical capabilities.

CAD Point CRM : [GitHub](#)

- Developed a full-stack **CRM platform** using **React, Node.js, Express.js, PostgreSQL, and Prisma** to manage leads, students, courses, and follow-ups.
- Implemented **REST APIs, authentication, responsive UI, database management, and workflow automation** with a production-ready architecture.

CERTIFICATION AND ACHIEVEMENTS:

- **Model Context Protocol (MCP): Advanced Topics** | Anthropic | Mar 2026.
- **Deloitte Australia – Technology Job Simulation** | Forage | Apr 2026.
- **Building with the Claude API** | Anthropic | Mar 2026.

EDUCATION:

Master Of Computer Application

SRM - University, Chennai	2026	90%
---------------------------	------	-----

B. Com Computer Application

Bishop Heber College, Trichy	2023	80%
------------------------------	------	-----

HSLC

Sri Jayendra Matric Hr. Sec. School, Trichy	2020	72%
---	------	-----

SKILLS:

Technical Skills:

- Programming Languages: **Python, Java, JavaScript, C, C++.**
- Web & Application Technologies: **HTML, CSS, REST APIs, React.js, Node.js.**
- Databases: **SQL, Oracle, MongoDB.**
- Engineering-Relevant Transferable Skills: **Process Analysis, Data Validation, Quality Checks, Troubleshooting, Root Cause Analysis, Process Documentation, SOP Compliance, Process Improvement.**
- Core CS Fundamentals: **Data Structures & Algorithms, OOPs, OS Concepts, Design Patterns.**
- Tools: **Git, GitHub, MS Office**
- Networking: **(TCP/IP, DNS, HTTP, SSH)**
- Methodologies: **Agile, Scrum**
- AI/ML: **Artificial Intelligence, Machine Learning, Deep Learning.**

Soft Skills:

- Leadership & Team Collaboration
- Effective Communication
- Quality Assurance
- Analytical Thinking & Problem Solving
- Strategic Planning & Goal Setting
- Adaptability Under Pressure
